RE: TST Evaluation of the G-Fed Games RNG

This Certification Letter pertains to Technical Systems Testing (TST)'s evaluation of the G-Fed Corporation (G-Fed Games) Random Number Generator (RNG).

TST's evaluation of the G-Fed Games RNG was limited to the Laboratory Environment, and at the time of the evaluation TST found that the RNG met or exceeded:

1. G-Fed Games technical specifications, and
2. Generally accepted industry standards for highly regulated jurisdictions worldwide.

TST has verified through mathematical and statistical analysis, within a ninety-five percent (95.0%) confidence level (this is a documented level of confidence for such statistical analysis), that the G-Fed Games RNG distributes numbers with sufficient non-predictably, fair distribution and lack of bias to particular outcomes. The evaluation has shown that the G-Fed Games RNG produces a statistically acceptable source of random numbers for the following G-Fed Games applications / games:
